	\$0
D. Impact in Future Years?	
If no fiscal impact in first two years, indicate if there will be any impact in future years, and explain. Also, indicate any significant changes in fiscal impact beyond the first two years. (Use back side, if necessary.) There is no direct fiscal impact to state government, but there will be a larger amount of education funding allocated locall to administration in order to ensure compliance. See Sections E and I.	

Randy Raphael Statistician 538-7802 February 26, 2007

I. Impact on Local Governments, Businesses, Associations, and Individuals

Local School Districts/Charter Schools:

Many districts have policies that allow the district to negotiate only with that union which has the majority of members or which teachers by majority vote choose to be their representative union. Forcing districts to negotiate with any and all unions will increase administrative expenditures by making the collective bargaining process inefficient.

<u>Businesses and Associations</u>: Teacher unions with relatively smaller market shares will have increased business opportunities.

Individuals: None.

Narrative Description of Bill:

This bill requires school districts and charter schools to allow "education employee" (i.e., teacher) associations equal access to the following activities: distribution of information to teachers' physical or electronic mailboxes; and membership solicitation at new teacher orientation; prohibits school districts and charter schools from: establishing or maintaining procedures that favor one teacher association over another; or explicitly or implicitly endorsing a teacher association; and prohibits school calendars and publications from referring to the name of any teacher organization in reference to any break in the school calendar.

This is a draft fiscal note response from the Utah State Office of Education (USOE) and may be revised in the future. This fiscal note input draft does not imply endorsement of this bill by the State Board of Education or USOE.
